CAREER OBJECTIVE

Entry-level Cybersecurity / SOC Analyst aspiring to contribute to threat monitoring, incident analysis, and vulnerability assessment roles using foundational knowledge of networking, Linux environments, and security tools, supported by strong academic performance and hands-on project experience.

EDUCATION

Bachelor of Science – Information Technology
Nirmala Memorial Foundation College, Mumbai | 2023 – 2026
CGPA: 9.25 / 10

HSC – Science | 2023
Saraswati Vidyamandir And Junior College Of Science Kudase
Percentage: 52.83%

SSC – Maharashtra Board | 2021
Saraswati Vidyamandir And Junior College Of Science Kudase
Percentage: 72.20%

CORE PROJECT

CyberVault – Hacker Simulation Challenge (Final Year Project)
Tech Stack: React.js, Flask, Python, Tailwind CSS, SQLite, JWT

- Developed a full-stack gamified cybersecurity learning platform simulating phishing, brute-force, IAM breaches, and file-encryption scenarios.
- Implemented authentication system, mission validation engine, scoring logic, and admin dashboard.
- Built REST APIs using Flask and responsive UI with React + Tailwind CSS.
- Designed structured threat-simulation modules to mimic real-world SOC learning environments.

INTERNSHIP & CERTIFICATIONS

- Data Visualization & Data Science internship – Imarticus Learning (Live classes, guided projects, mentor support)
- Cybersecurity Analyst Job Simulation – Tata Group (Forage)
- Data Analytics & Visualization – Accenture North America (Forage)
- Cyber Job Simulation – Deloitte (Forage)
- Python Programming Certification – NMFC

TECHNICAL SKILLS

Cybersecurity & Tools

- Linux (installation, terminal commands, networking utilities)
- SIEM Tools – Beginner Exposure (Splunk)
- OWASP Top 10 Awareness

Programming & Development

- Languages: Python, C++, JavaScript, SQL
- Frontend: React.js, HTML, CSS, Tailwind CSS
- Backend: Flask, Node.js (Basic)
- Tools: Git, GitHub, Postman, VS Code

ADDITIONAL PROJECTS

Portfolio Website – HTML, CSS, JavaScript

Responsive personal website showcasing technical projects and certifications.

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Analytical Thinking
- Communication
- Team Collaboration
- Adaptability

EXTRACURRICULAR

NSS Volunteer – Assisted in organizing awareness campaigns and managing event coordination.

Cyber Hunt Challenge Participant – Participated in real-time cybersecurity simulation activities.
